■ Human Group Ventures Overseas

The Human Group develops a wide range of businesses centered on the education business, including human resources, elderly care, childcare, beauty, sports, and IT. Since its founding in 1985, we have set "For Society and People." as our management philosophy, and are working for solving various social issues that change with the times, such as educational disparity, labor shortage, aging society, and problem of capacity shortage in nursery school , has developed its own business model.

The Human group, which has continued to face with people and society, will also actively work on the SDGs (Sustainable Development Goals), which have been set as goals to be achieved throughout the world. Through contributing to the SDGs, We will accelerate the realization of "For Society and People." and contribute to the creation of a better society.
